Summary:-

Data Analyst with experience in SQL, Python, Power BI, and Tableau for cleaning, analyzing, and visualizing large datasets. Skilled in delivering accurate insights, maintaining KPIs, and supporting end-to-end reporting processes. Experienced in working with real-world FMCG datasets, building dashboards for stakeholders, and resolving data-related issues to ensure client satisfaction.

Work Experience

Data Analyst Intern | CareerNaksha Dec 2024 – Mar 2025

- Preprocessed and structured raw datasets using Microsoft Excel, improving data accuracy by 20% for business reporting.
- Developed automated Excel-based dashboards, reducing manual reporting time by 25%.

Data Analyst Intern | Unified Mentor | Remote Jun – Aug 2024

- Designed and deployed interactive Tableau dashboards to visualize sales trends, enhancing data-driven decision-making for client stakeholders.
- Conducted analysis on multiple real-world datasets, including Amazon Sales, FIFA World Cup, and Atliq Hospitality, generating insights into customer behavior, team performance, and business KPIs.
- Key Projects:
 - [Amazon Sales Data Analysis](#) – Identified purchase patterns and seasonal trends across customer segments using Microsoft Excel & Tableau.
 - FIFA World Cup** – Built dashboards to evaluate team and player performance, driving competitive insights.
 - [Atliq Hospitality Analysis](#) – Applied Power BI for KPI tracking and data validation, ensuring **95% accuracy** in business performance reporting.

Skills

Technical Skills

- Programming & Data Analysis:** Python (Pandas, NumPy, Matplotlib, Scikit-Learn), SQL
- Data Visualization & BI:** Power BI, Tableau Public, Microsoft Excel, Google Sheets
- Web & UI/UX:** HTML5, CSS3, JavaScript, React.js, Next.js, Figma, WordPress
- AI Tools:** ChatGPT, Prompt Engineering

Soft Skills

- Analytical Thinking | Problem-Solving | Time Management | Team Collaboration | Communication | Data Validation | KPI Monitoring | Reporting

Languages

- Hindi | English | Gujarati | Marathi

Education

ITM (SLS) BARODA UNIVERSITY | 2021-2025 | 7.56
Bachelor of Technology in Computer Science and Engineering

Projects

Data Analyst Projects

- **Tools:-** Microsoft Excel, Tableau Public, Power BI
 - [View Projects on GitHub](#) (or specific folder link if you have one)
 - Worked on multiple real-world data analysis projects focused on business intelligence, visualization, and data-driven insights. Used tools like Microsoft Excel, Tableau Public, and Power BI to clean, analyze, and visualize data for decision-making.

[Final Year Project](#) : Trends Analysis and Sales Forecasting for Multi -Fuel Vehicles

- **Tools:-** Microsoft Excel, Python, Google Colab
 - Developed a data-driven analytical model to forecast vehicle sales and fuel station growth trends in Mumbai and Delhi.
 - Incorporated government policy impacts, running cost evaluation, resale value prediction, and market transition analysis across Electric, CNG, Petrol, and Diesel vehicle segments. Utilized Python (Pandas, Matplotlib), time series forecasting, and policy based simulation techniques to derive insights and support decision-making.

[Movie Recommendation System](#)

- **Tools :-** Python, Scikit-Learn
 - Built a system using machine learning to suggest movies based on user preferences. The system efficiently recommends similar movies based on a given movie title.
 - Analyzed movie genres and calculates cosine similarity for content-based filtering.

Web & UI/UX Projects

- Designed a responsive multi-page fitness [Gym Website](#) (Figma) with emphasis on usability, branding, and accessibility.
- Built AmazingShoe, a WordPress-based e-commerce website, customizing themes and plugins to optimize user experience.

Certifications

- Simplilearn – Power BI
- Deloitte Data Analytics Job Simulation (Forage)
- Simplilearn – Tableau Public
- Simplilearn – Figma for UI/UX Prototyping
- Yoast SEO Academy – WordPress for Beginners
